Mention Price List No. 510

MARCH 18, 1954

There has been an unprecedented demand for all field seed this season, and many items, such as Lespedeza, Soybeans Seed Corn, both hybrid and open-pollinated, Williamsburg Alfalfa and other seeds, are in short supply. We believe our customers will act wisely in covering their seed requirements for the next few months.

HYBRID CORNS

High Germination. Treated. 1-bu. Cotton Bags Included 5-Bus. Lots, 25¢ Per Bus. Less. Quart, 2 lbs., postpaid, 90¢

Good Quality Round Grades \$2.50 Bu. Less

The terrific drought last summer caused an acute shortage of seed corn throughout the South, open pollinated and hybrid. The intense heat and drought seriously hindered pollination of hybrid seed production fields, causing a high per cent of large round grains, many barren cobs, and very little good flat grains of Southern adapted hybrids. The Extension and all Agricultural Agencies are intensively educating Southern farmers to plant rounds. In case we sell out of flats of your first choice hybrid before receiving your order, please permit us to ship rounds, or flats of another hybrid similar in performance and adaptation, before these also sell out.
